Pricing is subject to change without notice. Standard quantity discounts are listed, other discounts may be available.

Delivery of any ordered units will be quoted at order placement and will depend on quantity ordered and on Chaparral Physics' current production demands. We generally attempt to keep all delivery times to less than 90 days with a target of 30-60 days ARO. Large orders may have split delivery dates quoted.

Chaparral Physics is able to customize the sensor to your needs. Please inquire about custom sensitivities or other modifications to make the sensor best fit your application.

Non-US orders are subject to export licensing requirements. A licensing fee will be assessed to cover license acquisitions costs. Please contact Chaparral Physics for details.

These sensors and their technology are intended for the sole use of the purchaser in the United States of America. The purchaser is hereby advised that these sensors are controlled under the International Traffic in Arms Regulations (22 CFR 120-130). These commodities and the related technology have been designated as defense articles and significant military equipment under Category XI (b) of the United States Munitions List (22 CFR 121.1). Transfer of these commodities or associated technology to a non-U.S. destination or to a non-U.S. person in the U.S. or abroad, except as specifically exempted in the ITAR, requires an export license issued by the U.S. Department of State. It is the responsibility of the purchaser to insure compliance with all applicable U.S. export regulations.
